2016 Membership Cards

For 2016, please remember to get your AMA insurance renewed before you're MMM membership. You need to provide a copy of your 2016 AMA card, driver' license and an [updated application](#) found here; www.murocmodelmasters.org/app.pdf

Applications may be mailed to: Muroc Model Masters, PO Box 2194, Rosamond, CA 93560-2194. Checks can be made payable to Muroc Model Masters. You may also renew at the monthly club meetings.

Muroc Model Masters February 10, 2016 Minutes

The Muroc Model Masters meeting on February 10, 2016 was called to an opening at 6:32 PM by the club president, Jack Bugaren.

A few old business topics were brought to the attention of the general members in attendance. There was a discussion of posting a sign for when the field is closed/ opened with hours of operation; which was further discussed in the Board of Directors meeting. The LA Air Show is in March and the club discussed the possibility of getting a booth next year because it was too expensive this year.

The new business topics had a more abundant surplus of topics. There was a NOTAM for field to be open the weekend of February 13th – 15th, and the road is wet, but the field is dry so cones will be set up around the wet space. Airspace management has designated 2 places to fly on base for multi-rotors and also the lead to possibly being able to fly everyday if drones can fly on 2.4 daily. By the 21st of February members need to have registered as a pilot with FAA, which is \$5 and is good for 3 years; also AMA is fighting to get the same process for registration. There has recently been a shut down all RC operations within 30 miles of DC, but is now back and running; and is relying on local law enforcement to enforce whether or not in violation with hefty charges behind it. As a club, we are not a target, or as individuals and not as a liability of the club. The updated application is now ready for use. Andy brought a light weight Show –and - Tell plane. Red won guess that tail with the F-22 Raptor, and gets to pick the tail for next month. On February 19th there was an indoor fly in at Tehachapi HS and in April there is another indoor fly at Mojave.

Thank you to all who were in attendance.

The Muroc Model Master meeting was called to a close at 7:14PM by the club president, Jack Bugaren.

The minutes were collected and compiled by Jaz Sanchez.

Muroc Model Masters March 9, 2016 Minutes

The Muroc Model Masters meeting was called to an opening at 6:31PM by the club president, Jack Bugaren.

The old business only had one topic. The board of directors meeting was brought to the attention of the general members of the club that the board fixed and adjusted some of the by laws. The board of directors will meet at least twice a year, the application was discussed and adjusted and a guest policy was also established.

The new business had many more topics and subjects that were addressed. The lake bed is dry, but with recent rains make sure to check the website for further updates. There is still a plan to restripe the lines on the field; and a new emphasis on staying on the road, so rules were adjusted and cones may need to be placed in order to give guidance on the road and where to park. There was also mention of planning another fun fly and possibly beginning a \$5 entry charge and the club's opening day will be April 23rd or 30th depending on weather and is to be determined. John Redman was practicing for a competition. A new treasurer will be needed and nominees or volunteers will be accepted. The charter and insurance has been renamed. New business also included a discussion of the proposal of guest cards with possible fee and basic rules and/or their joining or a guest application with the same rules as a regular member. Finally, there could be a posting of planes subject to safety inspections and gas planes require at least two people to start up.

The Muroc Model Masters meeting was called to a closing at 7:13 PM by the club president, Jack Bugaren.

Thank you to all who were in attendance.

The minutes were collected and compiled by Jaz Sanchez.

Guess the tail

For guess the tail of the aircraft contest. Come to the meeting on 11 May 2016 with the correct aircraft type and put your name the hat to win \$20.00.

We have years of experience to offer plus tons of fun in this hobby so if you have any questions, please feel free to ask.

Happy Flying!
